Re: Instructions for Accessing the Library Resources using your I-Pad.

Step 1:

Download the following apps from the App Store

iPublish Central

AnyConnect

BrowZine

Step 2: Configure AnyConnect

Click on Add VPN Connection

Description = HSC VPN

Server Address = vpn.health.ufl.edu

Click on Save

Step 3:

Start BrowZine and select **University of Florida** from the drop down list. Now your I-Pad is ready to access the books and journals from the University of Florida's Library.

Step 4:

Using the Safari browser **only** on your I-Pad enter the following address in to the "Go to this address" section at the top of the browser

<http://library.health.ufl.edu>

Step 5:

Scroll down to the "Quick Links" located on the left of the screen

From the list you can select either eBooks or eJournals

Step 6: - **eBooks**

Selecting eBooks will take you to a list by publisher or parent company.

Books the Department has purchased are currently under the following names:

Books@Ovid, Thieme ElectronicBook Library, EBSCOhost, SpringerLink & ScienceDirect.

(See Pg. 3 for a list of books and the related publisher)

In addition to the purchases made by the Department the Library service has purchased other radiology books that you can search for by title or just browse the contents of the other publishers.

Accessing Books@Ovid

After selecting eBooks on the “Quick Links” section of the web page click on Books@Ovid
A new page will open that displays the search options for Wolters Kluwer .

Click on “Books” on the bar just under the Wolters Kluwer name and then click on “Browse all Books”

You will now see all the books the library subscribes to for Radiology.

Click on the book you want to read. A new window will open displaying the book and on the left a table of contents.

Accessing Thieme ElectronicBook Library

Click on the link for “Thieme ElectronicBook Library”
You do not need to log in.

Select the book you want to read by clicking on the “Download” option to the right of the name.
The “Read It” option does not work on the I-Pad at this time.

The web page will now display a warning that the requires the iPublish Central app

Click on the Download icon and the book will now open in the iPublish Central app.

Accessing Journals on the I-Pad

From the “Quick Links” list select “eJournals”

This will take you a search window for all the journals the Library has.

From the “Browse e-resources by medical subject” select Radiology and then click on “Search” to see all the journals available for Radiology. Currently there are 56 journals to select from. Click on the journal you wish to review by selecting “Title details from...” Link and then select Table of contents. Alternatively click on the app BrowZine and search for the journal you want to review.

EBSCOhost

Click on the link for “EBSCOhost”

Now enter the title of the book you want and click search

You can now select to read the “full text ebook” or select “Download (Offline)”

SpringerLink

Click on the link for “SpringerLink – Books”

In the search field enter the title of the book and click on the magnify glass. Select the book you want and start reading.

ScienceDirect

Click on the link for “ScienceDirect”

In the search field enter the title of the book and click on search. Select the book you want and start reading.

List of Books
